Brompton and Hans Town

Victoria and Albert Museum, Cromwell Road, LONDON, SW7 2RL	Internal alterations to Gallery 40 (the Fashion Gallery) at the Grade I listed Victoria and Albert Museum. The works amend and build on Listed Building Consent LB/25/03398 (July 2025). Under that consent the 1960s mezzanine has been removed, and mosaic floor repairs and reinstatement of the upper-level balustrade are under way. The proposed works comprise: Free-standing display cases arranged in an X-configuration aligned with the mosaic floor. The cases have Portland stone bases and anodised aluminium frames, with a central frameless glass case. None of the cases are fixed to the floor. Two showcases within the outer portals of the south (Long Gallery) entrance. Revised, lower showcases to the east and west lunettes, with wall restraints and flanking low acoustic walls that conceal services. Apse installations: a free-standing timber and Portland stone amphitheatre in the north-east apse a photography wall in the south-east apse a cantilevered wall-mounted showcase in the south-west apse a radial Portland stone and glazed showcase in the north-west apse Aluminium leaf gilding to the apse half-domes and entrance portals. Acoustic treatment: fabric-faced panels to the outer ring of the dome ceiling, supported from new framing in the roof void independent of the fibrous plaster ceiling acoustic plaster to the lunettes and selected mid-level walls perforated timber and metal panels at low level A suspended lighting ring within the dome, incorporating lighting, Wi-Fi and security equipment. A central AV pendant housing four projectors, suspended from the dome. A roof void access gantry. This comprises radial gantries and lower platforms on resin-anchored cantilever brackets, plus removable mesh netting to the existing balustrade. Daylight control: internal blinds and external window films to selected windows in Gallery 21. Redecoration in an off-white heritage paint. Associated mechanical, electrical, security and builders' work, and making good. All new interventions are designed to be reversible and to minimise impact on historic fabric. No change of use is proposed. Town Hall, Hornton Street, LONDON, W8 7NX	Non-material amendment to planning permission 25/02416 (Re-waterproofing north forecourt area. Current paving bricks to be taken up. Replacement of existing bike mount, drainage gullies and low barrier railings surrounding roof light. Upstand to roof light to have 8 no. louvres installed to allow for smoke extract from basement. Proposed louvers to be bronze anodised to match existing appearance windows and doors and complementing colour contrast with brickwork;. New roof light in same position as previous but to cover whole open area. Proposed rooflight to be slightly raised to accommodate new inner perimeter gutter design that will replace previous gutter design. Rooflight will remain obscured and safety glazed and upgraded to current building regulation. Rooflight materials to be bronzed glass appearance matching current surrounding fenestration and finished with black jointing silicon. Perimeter gutter to sit flush to reinstated brickwork soldier course of vent structure, to be finished in stainless steel and finished with leaf guard, flush with top of brickwork. A termination bar to seal new membrane against existing brickwork walls/upstands. Reinstatement of brickwork to ventilation / rooflight structure to match former brick materials in bond, size, materials and appearance, but expansion joints to be added to overcome cracking in ooriginal design. Expansion jointing mastic to closely match brickwork colour or that of expansion joints to main building.) to allow: the omission of previously proposed 8 no. louvers within the concrete upstand of the roof lantern. The revised rooflight design removes the need for separate louvers or grilles.
