

## Design 2 - Lots Road Open Space

### A PLACE FOR THE WHOLE COMMUNITY

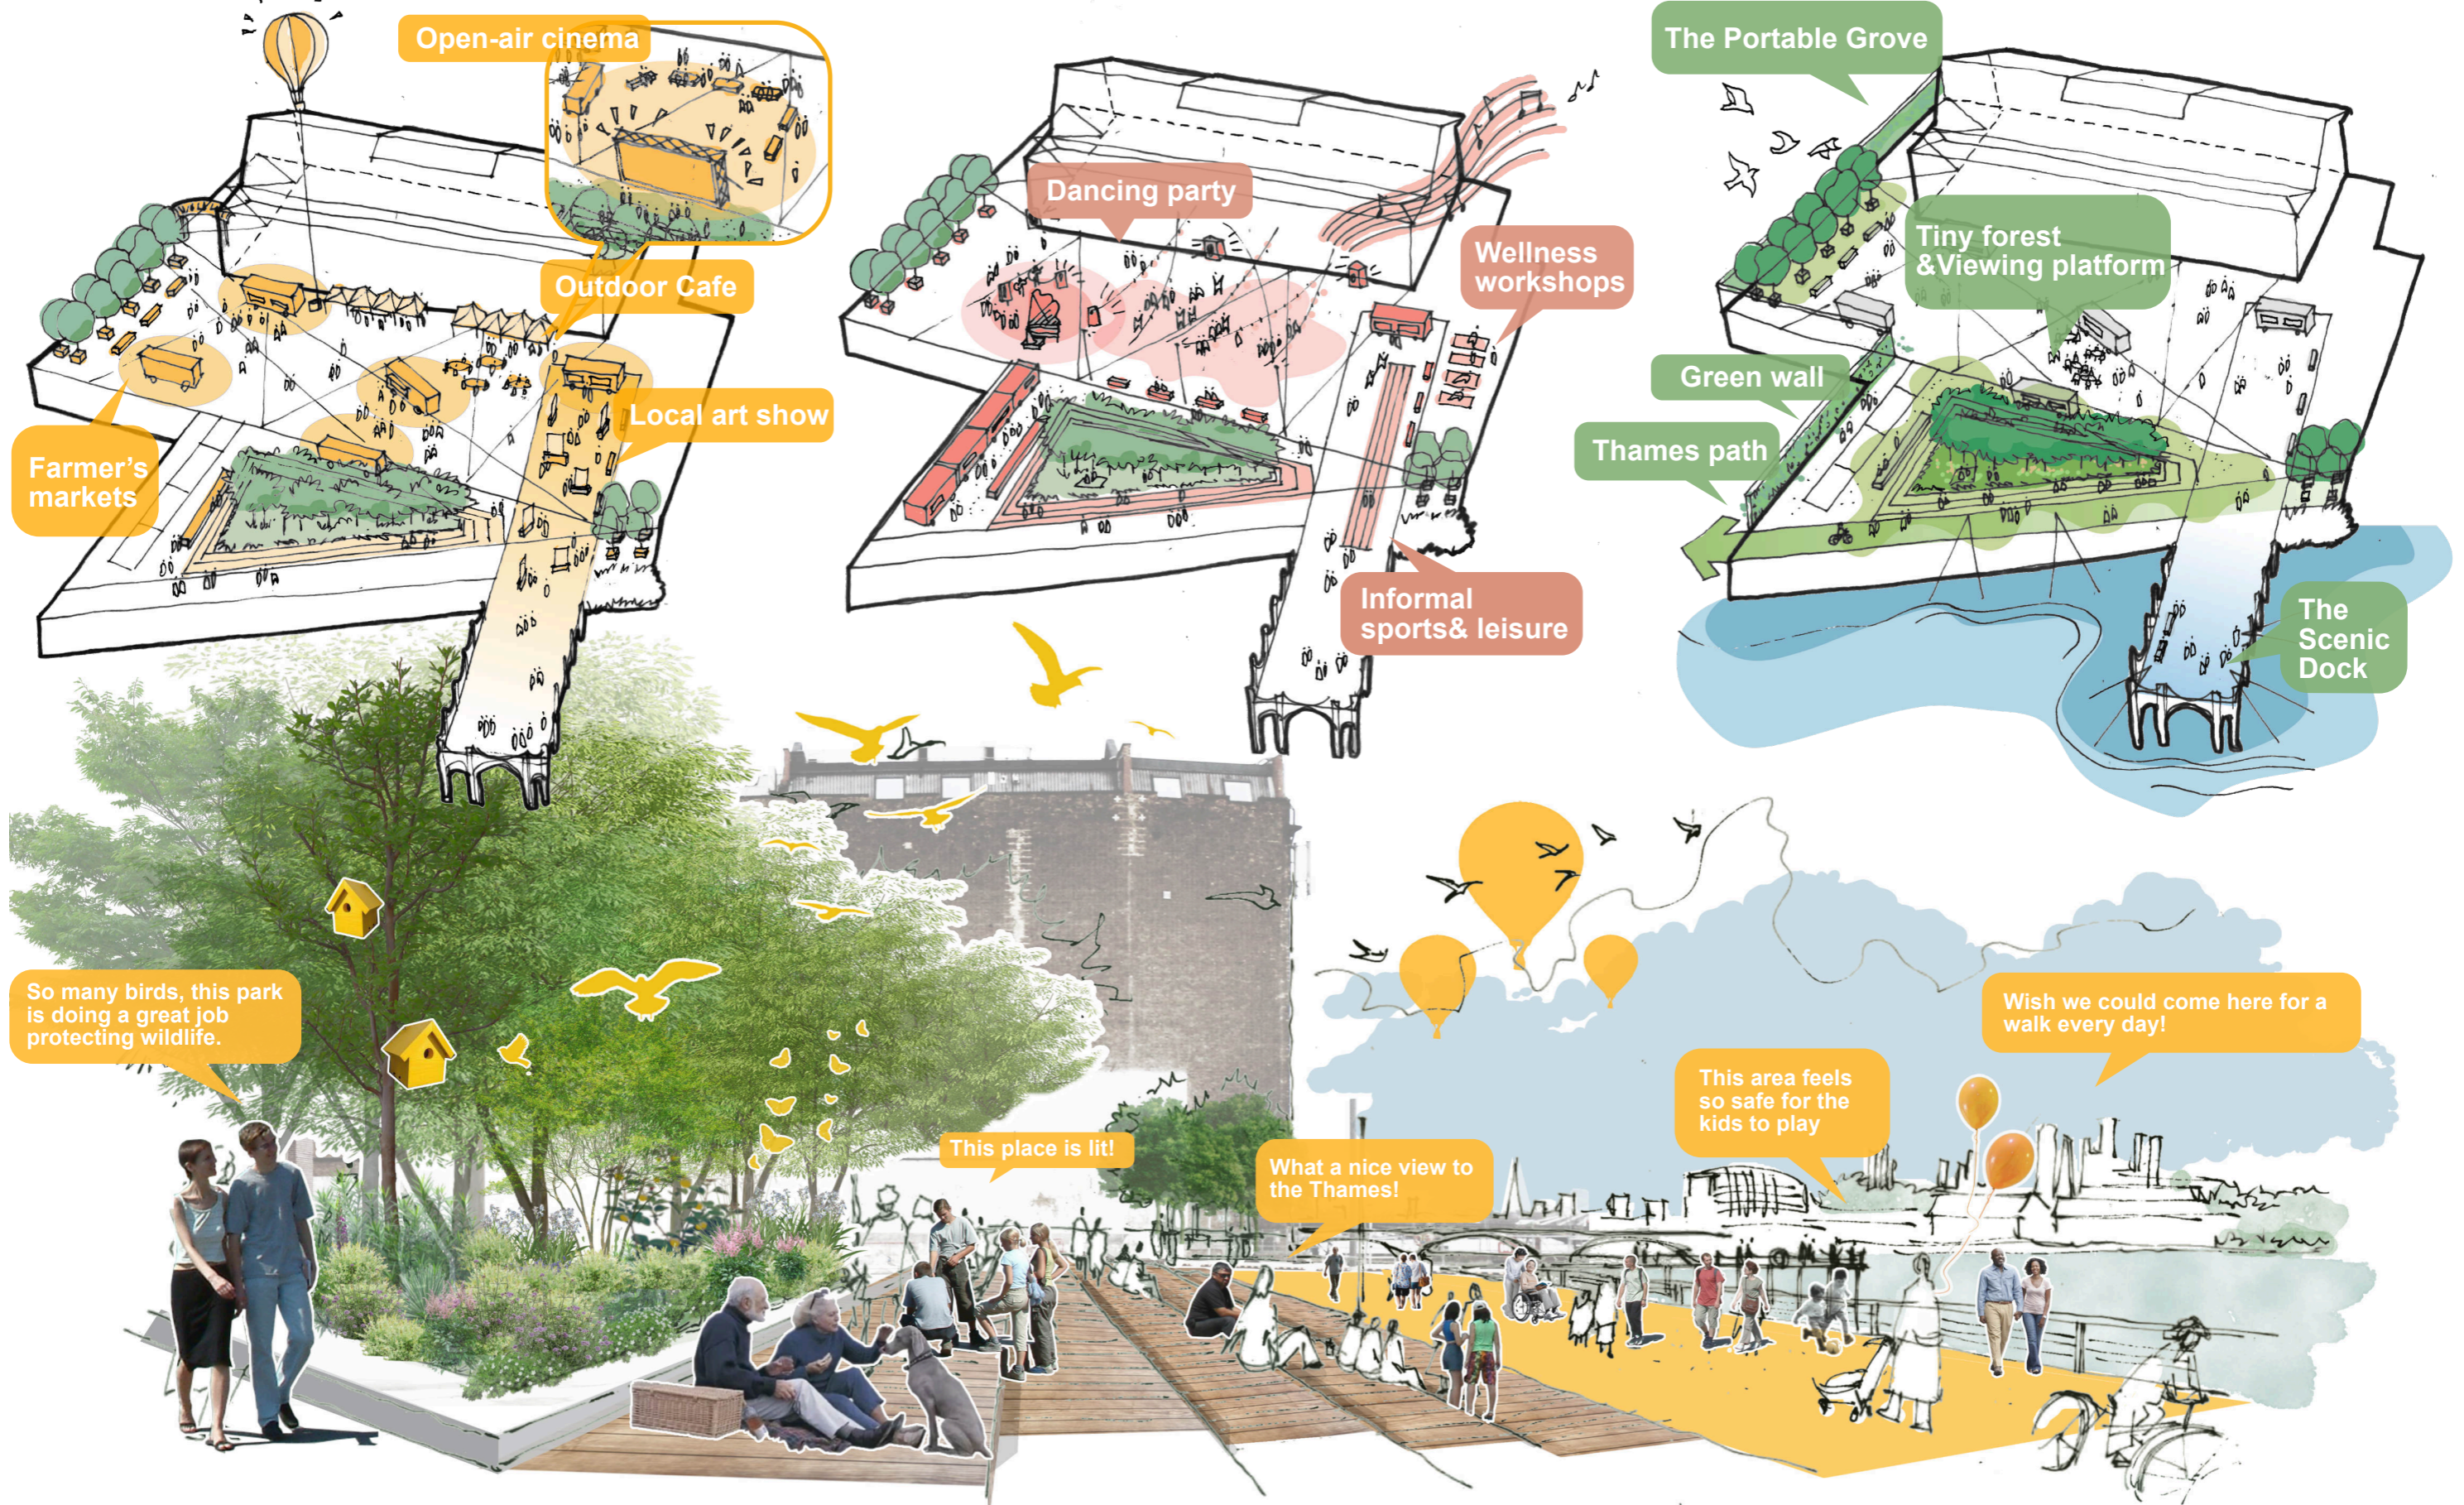

The Lots Road Open Space will be a place where everyone can prosper regardless of your background. It will be a flexible space which will be able to accommodate a wide range of pop-up events that will be developed through co-design with the local community. Some examples of how the space could be used are shown in the diagram below.

### AN ACTIVE, HEALTHY SPACE

The Lots Road Open Space will be a place that promotes active and healthy lifestyles. It will be multi-generational, catering to a wide cross-section of the local community, and designed to be fully accessible to all. Some example activities are shown in the diagram below.

### A PLACE TO CONNECT WITH NATURE & THE RIVER

Our proposals will reintroduce nature to the wharf and create sheltered places to sit by the water and enjoy the view. New groves of tree planting will create a pleasant environment and attract birds and insects. These areas are shown in the diagram below.

# Design 2 - Lots Road Open Space: 'A PLEASURE GARDEN FOR THE COMMUNITY'

## Design 2 - Lots Road Open Space: A Pleasure Garden for the Community'

Our proposal is to create a pleasure garden for the 21st Century at Cremorne Wharf. It will be a place where the Lots Road community can take part in events, have fun and spend time in nature next to the river.

### Flexible Activity Space

The area is largely left clear and may be used for pop-up events

### Storage Area

This area is used to store the movable elements when required.

### Thames Walkway

The river walk will be permanently clear and unobstructed.

### Movable 'Bus'

Your space,  
Your way!

### Tiny Forest & Viewing platform

The viewing platform and tiny forest are fixed in this location.

### Entrance Portable Grove

All planters and skating elements in the entrance zone are mobile and can be moved with 24 hours' notice.

### The Pier Place

### Ground Art
