- NOTES**
1. Do not scale from this drawing.
  2. All dimensions are in metres unless otherwise specified.
  3. Background survey information supplied by others. See original survey plans for details.
  4. This drawing is to be read in conjunction with all drawings and documents related to the project.
  5. All street furniture to be positioned at a minimum 450mm offset from the adjacent kerb face.
  6. The exact positions of mains and services must be established via CAT scan prior to works being undertaken.
  7. Proposal developed in accordance with RBKC Streetscape Design Guidance.
  8. Contractor to provide a formed drainage channel at the intersection of existing and proposed footway paving by cutting Yorkstone, ensuring positive falls to existing drainage infrastructure.
  9. Raised table ramps to be constructed at a maximum gradient of 1:20. Proposed resurfacing to tie into existing carriageway levels.
  10. Lighting assessment to be undertaken at detailed design stage to ensure appropriate illumination for the proposed crossing.
